

SHOPPING

Many will be surprised at the sophisticated and diverse range of quality shopping that is available in Milton, where retailers have made it their mission to keep product duplication to a minimum and each outlet has its own individual style and merchandise.

The fashion is a far cry from the popular perception of typical country style, being both contemporary and edgy and featuring both international and local designers. Fashionable day wear and glamorous formal attire can be found, with several excellent outlets from which to choose.

Accessorising your fashion is also easy with a choice of jewellery styles including award-winning local designs, contemporary silver jewellery, handmade resin pieces and Pandora collections. These can be match with the latest trends in handbags and fashion shoes and your wardrobe further enhanced by a selection of sexy lingerie and lounge wear.

Chic interior design and homewares are readily available, along with children's garments from France, toys from Denmark, quaint outdoor or gardening accessories and beautiful Israeli jewellery, Bison pottery, Turkish ceramics, specialist fabric and haberdashery items and a book store with an eclectic range of recent releases and time worn classics.

Surfers and artists will find plenty of opportunity for a retail hit, while lovers of times past will find a treasure trove of pre-loved retro fashion, mid 20th century furniture and genuine antiques ranging from collectibles to old tools and farm machinery.

For those with a finely tuned social and environmental conscience a choice of natural perfumes, organic soaps, Fair Trade products and "upcycled" or recycled arts and crafts provides opportunities for guilt free retail therapy, while committed "foodies" will find reason to celebrate the range of locally made confections, savoury sauces and delectable gourmet deli items that can be purchased.

That Milton is an artist's community is also evident by the volume of work by local artists that is on display in the galleries, shops, cafes and restaurants.
